Dear All--

As most of you know from Tuesday, we have hit some snags in method development in Madison as well as in Harrogate. I suggest we wait at least one more week to be in a better position to choose the time for a trip to either site. Let's discuss on Wednesday May 16. I have had preliminary discussions with Bob Libby and he expects to hear back from me then as well. I also want to arrange a conference call to include Roethig, von Holt, Kinser, Libby, and Oey at a minimum to plan these QA visits. Please advise me of your availability May 22- 24 for such a call. Thanks.

Dear Jan,

I talked to Klaus von Holt today about the QA for the TES. He proposes to spent a QA visit to Madison, (CRU and labs) and Indianapolis during the first week of June. The visit to Harrogate should take place towards the end of June or July.

Best regards  
Hans
